

We have Australia covered when it comes to broken junctions.

Nuflow specialises in Lateral Connection Liners (LCL) for any type of junction.

Guaranteed for 40 years.

The Nuflow Process.

1.

2.

3.

4.

5.

1. The pipes are checked using the latest pipe camera investigation technologies.

2. Blocked and root intruded pipes are cleaned with a high pressure jetter.

3. A Nuflow liner is pulled into place. We can make the branch or main line to any length.

4. The Nuflow liner is inflated using a custom-made bladder and left to cure.

5. The bladder is removed leaving behind a structural repair. Guranteed for 40 years.

Benefits:

The Nuflow process completely lines the whole of the junction in one hit.

We can reline any type of pipe, diametre or length combination. Either 45 or 90 degrees.

The Nuflow process of cured-in-place, is the most versatile repair system in the world.
